Education

Polytechnique Montréal Bachelor's Degree in Software Engineering Concentration in Artificial Intelligence and Data Science Machine Learning, Optimization Methods and Algorithms, Reinforcement Learning...	August 2023 to April 2027 <u>Honours</u> – GPA: 3.84 / 4
Politecnico di Torino (Turin, Italy) 2-semester exchange, registered at the Master's level in Computer Engineering	September 2025 to June 2026 29.08 / 30

Professional Experience

Ivado Labs Software Engineering Intern - Contributed to the outperformance of a trading model on a \$50M+ portfolio on the electricity market by identifying and integrating key new data sources - Improved the reliability of the model's predictions by uncovering flaws in their distribution and building a data (ETL) pipeline from scratch in Python	May 2025 to August 2025
Thirdbridge Inc. Software Development Intern Delivered the redesign of a \$1M+ contracting company's website, still in production over 2 years later, by developing the homepage and site with React, GatsbyJS, and Payload CMS	May 2024 to August 2024
L3Harris Technologies, Inc. Business Intelligence Intern (returning intern) Improved work-progress tracking for 10 teams via Power BI dashboards, coordinating the SQL integration of hundreds of tables from 10+ databases (Oracle, SQL Server, Snowflake)	May 2022 to August 2022, May 2023 to August 2023

Awards and Distinctions

Computer Science Games (CS Games) First place in an inter-university competition	April 2024 14 universities, nearly 300 students
Hackatown, Montréal Audience Choice Award among 50 university teams	January 2020 \$800 in prizes
Polytechnique Hackathon First place in programming contests	April 2017 and April 2019 \$1,000 in scholarships

Projects

SportsZone – Full-stack Project Developed a complete sports team management platform with Android, iOS, and web interfaces. Stack: Angular Ionic, Node.js, MongoDB – github.com/AdrienTrahan/SportsZone	2020 to 2021
Row Jumper – Mobile Game Created and published a game on the Apple App Store at age 11. Stack: Swift, SpriteKit	2016

Technical Skills

Proficient: Python, PyTorch, Typescript, React, SvelteKit, CSS, Swift, MongoDB
Experienced: C++, Java, PostgreSQL, Microsoft SQL Server, Git

Student Involvement

Software and Computer Engineering Student Committee Vice-President of Communications (elected) Managed the committee's communications and branding for 500+ students, supporting networking events and study sessions in software/computer engineering.	May 2024 to April 2025
Vice-President of Student Integration (elected) Facilitated the integration of the new cohort by coordinating their participation in the committee's networking events and study sessions.	September 2023 to April 2024
